

The Beverly Hills Bar Association was founded nearly 100 years ago by Jewish lawyers as the result of anti-Semitism that excluded them from similar professional opportunities. Our home of Beverly Hills is one of the largest Jewish communities by percentage in the world. The terrorist attacks on Israel and the resulting tremendous loss of life and security are therefore felt especially personally and deeply by many in our membership and larger community. Terrorism in any form is abhorrent. We join in both the collective mourning of those lost and the hopes for peace and safety.
